

# Feel Good (feat. Daya)

## Illenium & Gryffin

Yeah, I doubt, I doubt myself  
And I'm too proud to ask for help  
When you see me beside myself  
I don't have to explain it, baby  
Yeah, I'm over picking fights  
And trying to mend it with the high  
Don't wanna know that I'm not right  
I know that I've been lately, lately Yeah, sometimes I need someone to pick me up  
Overdose my mind with the things I love  
You can take me there  
When my heart beats, when my heart beats free Take my hand in the middle of a crisis  
Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you make me, you make me feel good, I like it  
Take my hand in the middle of a crisis  
Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you make me, you make me feel good, I like it But you make me, you make me feel  
good Yeah, I get over, overwhelmed  
When all these problems burn like hell  
Maybe I just need a friend  
Who never calls me crazy, crazy You pull me off the front line before I run  
Keep me cool, but not get overdone  
You can take me there  
When my heart speaks, when my heart speaks free Take my hand in the middle of a crisis  
Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you make me, you make me feel good, I like it  
Take my hand in the middle of a crisis  
Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you make me, you make me feel good, I like it You make me, you make me feel good, I  
like it (I like it)  
You make me, you make me feel good Taking the weights off (ooh)  
To help with the pressure  
And I was here stressing (oh)  
Thinking it mattered  
Been with you for hours, but it feels like seconds  
It's only moments and I'm in heaven  
It's only moments and I'm in heaven, oh You make me feel good  
You make me feel good  
You make me, you make me feel good, I like it Take my hand in the middle of a crisis

Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you make me, you make me feel good, I like itNa na na na na, oh  
Na na na na na
