

One Last Time

Alesso & DubVision

Out of love
Out of touch
Got a feel coming back to me Back to me
Fill the space
With your embrace
You already have a part of me
Part of me Rolling, rolling, rolling, rolling
Just think of the world where we know it's not over
Pull me, pull me
Closer, closer
It's you and me against the tide
I need it one last time
It's you and me against the tide
I need it one last time It's you and me against the tide
I need it one last time Out of love
Out of touch
Got a feel coming back to me
Back to me
Fill the space
With your embrace
You already have a part of me
Part of me Rolling, rolling, rolling, rolling
Just think of the world where we know it's not over
Pull me, pull me
Closer, closer
It's you and me against the tide
I need it one last time
It's you and me against the tide
I need it one last time It's you and me against the tide
I need it one last time
