

Litany (Life Goes On)

Guadalcanal Diary

I see life like a mirror

And I see life so much clearer

We move so quickly

Who knows where the time goes

Where does this road lead?

No one knows, no one knows

Listen to the single heart beating

Rhythm for an ever-changing song

I see life with surprise

And I see life, oh, in your eyes

Take all your troubles

Put them in a common file

Light a fire with reason

Watch it rise, watch it rise

Listen to the single voice singing

Lifted in an ever-growing song

I see life without anger

I see life all together

I see life go on forever

Life goes on forever

Life goes on
