

Evil

45 Grave

Blind me with all your lies... you're evil
I can look into your lies... you're evil
I can look into your face... you're evil
Lying all over the place... you're evil
Hey ma, run into the night
You lie. You know
Into the night to roam
Those looks you give me tell that you're evil
You're so evil, you're evil, you're evil
I hope I don't see you alive you're evil
Hey ma, run into the night
You, yea you, you're so evil
You're a creature of destruction
Into the night to fight
Yea, you know
Into the night
Come on baby let's fight right now
I hope I don't fit into your plans you're evil
You, yea you, you're so evil
Those looks you give me tell that you're evil
Hey ma, run into the night
You're so evil, you're evil, you're evil
Yea, you know You're a creature of destruction
