

Thorns

Bonnie McKee

[Verse 1]

Medicated, guarded, jaded, promise baby, I'll be worth the ride
Warm heart, cold blood, soft touch, tough love
Burnt down, fucked up, just the way you like

[Bridge]

There's something in my nature
That seems to fascinate ya
You got a taste for danger
Don't know why
And I don't want to hurt ya
I want your hands all over
Do you know how to handle me cause I

[Chorus]

I got, I got thorns
Wear them like a crown, yeah
I got, I got thorns
You should know by now, yeah
I got, I got

[Post-Chorus]

That's what you get when you pick a rose
That's what you get when you pick a rose
Thorns
That's what you get when you pick a rose
Easy to love but I'm hard to hold
Thorns

[Verse 2]

Love me, hate me, ain't no daisy
You want safety, find a daffodil
I can't help it, wild, reckless
Leave you, breathless, tangled up in silk

[Chorus]

I got, I got thorns
Wear them like a crown, yeah
I got, I got thorns
You should know by now, yeah

I got, I got

[Post-Chorus]

That's what you get when you pick a rose
That's what you get when you pick a rose

Thorns

That's what you get when you pick a rose

Easy to love but I'm hard to hold

Thorns

[Bridge]

There's something in my nature

That seems to fascinate ya

You got a taste for danger

Don't know why

And I don't want to hurt ya

I want your hands all over

Do you know how to handle me cause I

[Chorus]

I got, I got thorns

Wear them like a crown

Wear them like a crown, my darling

I got, I got thorns

You should know by now

You should know by now

I got, I got

[Post-Chorus]

That's what you get when you pick a rose

That's what you get when you pick a rose

Thorns

That's what you get when you pick a rose

Easy to love but I'm hard to hold

Thorns, thorns

You should know by now, yeah
