

Float Away

Robbie Rivera

Robbie Rivera - Float Away

Float away, with me

Float away, with me

Float away, with me

Float away, with me

I want to take you down by the river

Where you can watch me undress

I want to lie with you in the water

Naked, floating on the sunlight

Float away, with me

Float away, with me

And in the waterfall I explore you

I want to be your temptress

And as a cool cascade washes over

We fall into the fire

He la la la la, he la la la la la la

Float away, with me

He la la la la, he la la la la la la

Float away, with me

He la la la la, he la la la la la la

He la la la la, he la la la la la la

Float away, with me

Float away, with me

Float away, with me

Float away, with me

Float away

Float away
