

Fire (Paris Blohm Remix)

3LAU & Said The Sky

The lights are out in the night
I stand by your side
Cause I see the light in your eyes
I'm on the edge and I'm here starving for love
You're my one desire As I grab onto your hand
I feel the heat rush to my heart
Just like the stars we burn, light up the night I feel the fire, fire, fire, fire
I feel the fire, fire, fire, fire
I feel the fire, fire, fire, fire
It's burning inside of me
I feel the fire, fire, fire, fire
I feel the fire, fire, fire, fire
I feel the fire, fire, fire, fire
It's burning inside, it's burning inside of me We're running out in the night
Doubts race through my mind
Breathe me back to life
So shelter me in your arms
When this world falls apart
Flames burn in me higher As I grab onto your hand
I feel the heat rush to my heart
Just like the stars we burn, light up the night
I feel the fire, fire, fire, fire
I feel the fire, fire, fire, fire
I feel the fire, fire, fire, fire
It's burning inside of me
I feel the fire, fire, fire
I feel the fire, fire, fire
I feel the fire, fire, fire
It's burning inside, it's burning inside of me
Smoke out, inside (Fire, fire)
Smoke out, inside (Fire, fire)
I feel the fire, fire, fire
I feel the, I feel the fire, fire, fire
I feel the, I feel the fire, fire, fire
It's burning inside, it's burning inside of me
