

Drunk Together (feat. Allday)

Jai Waetford

Haven't seen my mum in months
Acting like i dont know how
Typical to
I still love you
80 in a 40 zone
On the way to your house
Got a new demo for us to dance to
Front door opens
You're still awake
Calls me to your bedroom
We walk through crowds of fake people
In our own dimension
I pour the drink you make it stronger
I kiss your lips you hold it longer
We are
The ones
They warned you about
Bottle sips now we're drunk together
And I'm falling in love
With you
We're too
Drunk to know better
Bottle sips now we're drunk together
And I'm falling in love
With you
We're too
Drunk to know
Drunk to know
Drunk to know
Come on just before the sun
I've been working everyday
Baby just remeber that I still love you
Wake you up before I go
Take you to your favourite place
And I'll be rushing home so you can love me the way you do
Front door opens
You've been smoking
Call me to your bedroom
We don't need no outside people in our own dimension
I pour the drinks you make it stronger
I kiss your lips you hold it longer
We are

The ones
They warned you about
Bottle sips now we're drunk together
And I'm falling in love
With you
We're too
Drunk to know better
Bottle sips now we're drunk together
And I'm falling in love
With you
We're too
Drunk to know
Drunk to know
Drunk to know
Babe substance i want in my hand
Thats why they follow you ground try to control it I can't (yeah)
Sometimes i ... the reason i wouldnt give in a meaning it makes me wanna go drinking (yeah)
I got that superficial charm
With you on my arm
And we're sipling till we're drunk
Getting very fogged cause im tripping on you hard
Bottle sips now we're drunk together
And I'm falling in love
With you
We're too
Drunk to know better
Bottle sips now we're drunk together
And I'm falling in love
With you
We're too
Drunk to know
Drunk to know
Drunk to know
(End)
