

# Don't Worry

## Addison Groove Project

Three to seven either way  
Gets me to your place only to say  
I've got to get down to the show  
Baby you know I wish we could take this slow

Take my hand, let's walk a while  
Kiss your lips and see you smile  
Shake that thing girl, please don't hesitate  
Now you say let's go it's getting late

Don't worry  
Please don't you worry  
Don't worry  
When the morning comes don't go home early  
Don't worry  
Please don't you worry  
Don't worry  
We ain't in no hurry girl

At the club the girls and boys  
We dance all night and make some noise  
Give me rhythm music give me drums  
We ain't leaving here 'til the morning comes

The weeks go by, now you're on my mind  
I need your body right here next to mine  
The reasons why, I said oh my my  
Loving you girl is worth all my time  
The days go by, you're on my mind  
And I need your body right here next to mine  
The reasons why, I said oh my my  
Lovin' you is all I'm askin'  
When we get there I need some action  
Lovin' you is all I'm askin'  
This could be my main attraction

Move it, move it all night long  
You know life is short and then it's gone  
I'm so glad we came down to this show

And baby now it's time I let you know
