

Step Up (feat. Xzibit & Crooked I)

Kurupt

Samantha Jade Step Up Lyrics This is somethin for the radio This is somethin for the radio This
is somethin for the radio Boy, No matter what we go through

You step up, I'll step up too

It don't matter what the haters say

As long as you are my boo No matter how hard it gets

This love will have no regrets

As long as when we

Stepping on the dance floor

It's me and you

Feel the rhythm of the beat

That's my heart

Cupid shot me with an arrow

From the start

And you know that it's your love that's got me trapped

Every time I try to leave, you bring me back So much harder at times I cried a river

You dried my eyes and brought me back laughter

And when I lay next to you I want to wake up

And when I break up

It's only to make up Boy, No matter what we go through

You step up, I'll step up too

It don't matter what the haters say

As long as you are my boo

No matter how hard it gets

This love will have no regrets

As long as when we

Stepping on the dance floor

It's me and you And if we don't step up

We'll lose our groove

So confused, don't know which way to move

Hold my hand and let me know that you feel me too

Look into my eyes and tell me

Baby I love you You'll never get wet

'Cause I'll be your umbrella

And we can make it through any kind of weather

If you step up

I'll step up

Boy

'Cause I'm trying to be with you forever Boy, No matter what we go through

You step up, I'll step up too

It don't matter what the haters say

As long as you are my boo No matter how hard it gets

This love will have no regrets

As long as when we
Stepping on the dance floor
It's me and you And when the symphony plays, I feel my feet
Lifting from underneath
You grab my hand
Spin me around
And right before I fall
You catch me and you say
Baby, it'll be okay
Just look into my eyes and we will make another day Boy, No matter what we go through
You step up, I'll step up too
It don't matter what the haters say
As long as you are my boo No matter how hard it gets
This love will have no regrets
As long as when we
Stepping on the dance floor
It's me and you Boy, No matter what we go through
You step up, I'll step up too
It don't matter what the haters say
As long as you are my boo No matter how hard it gets
This love will have no regrets
As long as when we
Stepping on the dance floor
It's me and you Step Up This is somethin for the radio This is somethin for the radio This is
somethin for the radio Boy, No matter what we go through
You step up, I'll step up too
It don't matter what the haters say
As long as you are my boo No matter how hard it gets
This love will have no regrets
As long as when we
Stepping on the dance floor
It's me and you
