

# Atmosphere

## Kaskade

[Verse 1: Kaskade]

When I was young I would stand alone  
With visions of worlds that were all my own  
The lights in the sky weren't that far away  
Living in the vastness of outer space

[Chorus: Kaskade]

All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere  
All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere

[Verse 2]

When I was young I could hear the sound  
A melody pure and a rhythm loud  
Oh, the sound took me away  
Carried through the vastness of outer space

[Chorus]

All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere  
All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere  
Of all the waves in your atmosphere

[Outro]

Of all the waves in your atmosphere  
Of all the waves in your atmosphere

Of all the waves in your atmosphere
