

# Prelude

Jean Deaux

I don't know how you never seem to get nervous

Well, I've only done this a hundred times

Hey, I know, it's just that, this time it's gonna be much different

That's why I wanna make sure you're ready

I am

Alright

\*Clears throat\*

\*Typing\*

All done, let's get you in here

Hello? [?] Can you hear me? [?] Hello? Hello, please?

I'm right here, I'm right here, but you're gonna have to speak up a little bit, I can't hear you

You're burning up in there, I need you to hit the receptor

Can you hear me?

Pull down the receptor [?]
